WHAT A GREAT PLACE TO BE!!!

Our children have been impressing our visitors in the past few weeks. Yesterday, we had a visit from four people (including the assistant director of education) and they all commented on how thoughtful, kind, and inclusive the children were – they were extremely impressed by how the school feels when you walk into it – it is hard to put it into words but hopefully you all get that same feeling when you are in school too.

The school is currently busy with many different science investigations and activities for our Science Day, as I type a class are walking across the road to find out about the science of a building site. Thank you to Di Ekers, our science lead for organising such an exciting and inspiring day!

Have a lovely sunshine filled weekend!

DATES

Mon 24th – library assemblies

Tues 25th – Interviews for the Y1/2 maternity cover

Weds 26th – Friends Uniform Give Away

Weds 26th & Thurs 27th – Y3/4 Art Gallery Visits

Weds 26th – Y6 who are going to Fulford Science visit

Thurs 27th – Y5/6 Trail Blazers workshops

Thurs 27th – over and above reward time

Fri 28th – Rainbow Day

FRIENDS OF FISHERGATE

Thank you for the offers for the fair so far.

Gazebos - We are weatherproofing the fair this year, so if you know of any more gazebos we can borrow please let us know.

Helpers - we are still in need of approximately 18 more helpers. Family members and older siblings all welcome! Email friends or contact the office and come and be a part of it!

Free Uniform Sale June 26th

Next Wednesday at 3.15pm in the Lower school Hall. Bring a bag to fill and take what you need. Pre-Loved uniform all FREE.

Frozen Fridays

Starting next week - Friends will be selling ice pops on Friday afternoons 3.15pm in the playground. Ice pops 20p each.

Please bring your loose change and coins to ensure we can give correct change.

Cake Sale

With it being the final cake sale today, Friends would like to say thank you to everyone for supporting the bake sale with your donations, time and purchases.

PHASE UPDATES

EYU - This week in Early Years we have been finding out which numbers are odd and even. We have written about our amazing African drumming lesson and talked about our favourite part of the workshop.

Year 1/2 – We have enjoyed practising for Sports Day and being super scientists, watching as our sunflowers grow.

Year 3/4 - This week 3/4 have been planning and writing their own stories. They have really enjoyed this challenge and we can't wait to read them! As part of getting ready for our visit to York City Art Gallery, the children have looked closely at some of Monet's paintings, considering the way he used brush strokes to build up his impressionistic images. We have also experimented with warm and cool colours and how these can be used to create different emotions and compositions.

Y5/6 - We are enjoying learning about the Windrush generation in English and History. Year 6 designed and baked very professional-looking cupcakes and Ms Rees and Mr Burnell's class had the first of our Trailblazers workshops, learning about famous York citizens who will be celebrated through a series of sculptures across the city this summer.

SCHOOL DIVERSITY WEEK

Next week is School Diversity Week. Look out for posters promoting this around the school. The 28th June, Rainbow Friday, is a day celebrating the ways in which we are all different and all happy to be ourselves. School Council has asked if children can come in a single colour of the rainbow, so we can attempt a whole-school rainbow photograph!
